Data entry

Only cells highlighted in yellow allow for data entry. Error messages in cells are intended to alert preparers that established parameters are not being followed. **Failure to correct Errors or provide answers to all required questions prior to submission will prohibit acceptance of the attachment. Selected cells requiring a response will be populated with an “Answer Required” message until a response is entered.**

Certification

The **Certification** tab requires all preparers and reviewers to type their name on this form. Please note that there should be a segregation of duties; therefore, the preparer and the reviewer should not be the same individual for any tab. **By typing a name, the preparer is certifying that all of the questions have been completed and are accurate; the reviewer is certifying that the attachment has been reviewed and is complete and accurate; the preparer and reviewer were not the same individual for any tab; and the preparer and reviewer have read and understood the instructions for the attachment. If agency staffing does not allow for a different preparer and reviewer, please contact DOA.**

**Submission
requirements**

Contact DOA if the agency has any problems with the files.

After downloading the files, rename the spreadsheet file using the agency number followed by Att21. For example, agency 151 should rename its Att21.xlsx file as 151Att21.xlsx.

Submit the Excel spreadsheet electronically to finrept-agvatt@doa.virginia.gov.

Please include **Agency Number** and **Attachment Number** in the **subject line** of the submission e-mail.

Copy APA via e-mail to APAFinRept@apa.virginia.gov.

Do not submit paper copies of the Excel attachment.

For your convenience, the contact information in all but the first tab are unlocked and shaded yellow. The contact information continues to be automatically filled with the information from the first tab but the cells remain unlocked to allow for more than one preparer to complete the attachment.

**Attachment
revisions**

If you identify a submission that needs a revision, please contact the AttachmentAnalyst@doa.virginia.gov mailbox for guidance prior to submission. If a resubmission is approved, please follow the instructions below.

If attachment revisions are made subsequent to DOA’s acknowledgement of receipt and acceptance of the original attachment submission, **resubmit the revised attachment AND complete the Revision Control Log tab in the attachment Excel file.**

Enter the revision date, applicable Excel file tab name, row number and column letter revised, and the previous and revised information. Document text changes and numerical changes. Only enter changes for amounts actually keyed. For example, if a non-keyed, calculated total changes as a result of the revision, this does not need to be documented on the Revision Control Log.

If the attachment is revised more than once, do not delete control log revision information from the previous revision. Enter the new revision date and the additional revisions in the rows following the initial revision rows. This log should document all revisions from the initial attachment submission.

Include “**REVISED – date**” in the **subject line** of the submission e-mail as well as in the **file name**. Resubmit the revised attachment; and ensure that the **Revision Control Log** tab has been completed.

Each time a revision is submitted the Certification tab should be updated with new signatures and dates.

Federal match

Certain agencies, such as DOE and DSS, record accounts payable at year-end for program expenditures made to or incurred in political subdivisions. In many instances, these programs are jointly funded by a predetermined percentage of state and federal funds. When any such payments are made, the agency must ensure that it records accounts receivable for the earned matching amount not yet drawn down from the other financing source. In other words, if an agency incurs an expense (a payable) involving federal grant money disbursed on a reimbursement basis (agency must incur the qualified expenditure before requesting grant money), they should record a receivable for the federal grant part of that payable.

Other issues

The appropriate amount of receivables should be included for all federal payables owed as of June 30 and 1) paid in July and August or 2) will be paid after August 31 if the agency did not have sufficient cash on hand at June 30 for each individual grant to pay the amounts owed. This should include all modified and full accrual Federal payables that are reported in accordance with the **2024 Fiscal Year End Closing Procedures and Authoritative Literature / Guidance for Preparation of GAAP Basis Fund Financial Statement Templates** and any other federal payable (i.e. salaries or wages) processed in July and August; and/or any amount to be included on **Attachment 29**.

All federal receivables must be reported in the same time-period as the corresponding payable. For example, if there is a federal payable paid in July/August then the corresponding receivable must be recorded as collected prior to August 31 since the underlying economic event resulting in the receivable has occurred. These federal payables and receivables must be reported using the same accrual basis. If a federal receivable is a non-reimbursement based grant as defined by **GASBS No. 33**, **GASBS No. 36**, or **GASBS No. 65**, the receivable amount reported on **Attachment 21** should match the amount reported on **Attachment 27**.

Since federal payables owed as of June 30 may be paid after this attachment is due, answer question 1 on the **Reconciliation** tab. If an agency answers “No,” DOA will follow up with a supplemental submission requirement, which will be due at a later date.

Spreadsheet instructions

The following table provides guidance on the completion of each agency’s receivable information.

Step	Action
-	Enter the contact information specified on the first spreadsheet tab. Note: A control agency can use this spreadsheet to report all amounts for agencies under its control. In most cases, the control agency is the same as the agency number; however, some control agencies have various agencies under their control. 8	Enter the amount of the gross receivable. Round to the nearest dollar. Gross amounts should be keyed as a positive . For example, an agency has \$100 in gross receivables. The agency would record \$100 for this step.
9	Enter the amount of the allowance related to the gross receivable amount recorded in step 8. An allowance is management’s estimate of the amount of gross receivables, which will be or prove to be uncollectible. Round to the nearest dollar. Allowance amounts should be keyed as a negative . For example, the agency has determined that \$25 of the \$100 is uncollectible. The agency would record a negative \$25 for this step.
10	This column is automatically calculated . It is the gross amount less the allowance amount to show the net receivable amount. From the previous examples, this would be \$75.

**Final
instructions**

Ensure the totals on the spreadsheets (the totals are automatically calculated at the top of those spreadsheets) are accurate.

Complete the **Reconciliation** tab. **There are two sections:**

Enter receivable amounts in total that are not already reported on the **Expenditure, Revenue,** and/or **Loans Receivable** tabs. This would include receivables from other agencies (agency-to-agency receivables), travel advances, petty cash, and other receivables. In addition, amounts already reported to DOA on a financial statement template or via supplemental information should be entered. After all amounts are entered, enter the net receivable amount reported on the Quarterly Receivable Report. There should be no difference between the total net receivable amount reported on the attachment and the amount reported on the Quarterly Receivable Report (this includes totals by fund reported on the Expenditure, Revenue, and/or Loans receivable tab). If a difference is noted, revise amounts on the attachment as needed for amounts to agree. If the difference is because of an error reported on the Quarterly Receivable Report, contact DOA to explain the error. The Accounts Receivable system will close for entry on the same day the Attachment 21 is due.

Respond to **the six** questions in the second section:

Question 1: Ensure that the appropriate receivable has been reported for all modified and full accrual Federal payables owed as of June 30 in accordance with the **2024 Fiscal Year End Closing Procedures** and **Authoritative Literature / Guidance for Preparation of GAAP Basis Fund Financial Statement Templates**, any other federal payable (i.e. salaries or wages) processed in July and August, and/or any amount to be included on **Attachment 29** that did not have the offsetting cash on hand (applicable to the specific grant) as of June 30 for each grant.

Since federal payables owed as of June 30 may be paid after this attachment is due, answer question 1 on the **Reconciliation** tab. If an agency answers “No,” DOA will follow up with a supplemental submission requirement, which will be due at a later date.

Note: If the agency does not have any federal activity, please answer “Yes” to this question.
