## **Office of the Comptroller Directive No. 2-24**

### **Directive Compliance Guidelines for Higher Education Institutions**

#### **Introduction**

---

##### **Purpose**

This Directive provides guidance to higher education institutions for submitting the following items to the Department of Accounts (DOA) primarily to assist in the preparation of the Commonwealth's Annual Comprehensive Financial Report.

- Financial statement template based on generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB)
  - Other financial information
- 

##### **Institution compliance**

Institutions are required pursuant to the *Code of Virginia*, §2.2-803 and §2.2-813, as amended, to submit a financial statement template and/or other financial information primarily for the following reasons.

- The financial information required by this Directive is necessary for DOA to prepare the Annual Comprehensive Financial Report. The Annual Comprehensive Financial Report must be audited and issued by December 15.
  - The bond rating agencies use the Annual Comprehensive Financial Report to determine Virginia's bond rating. Maintaining an unmodified opinion on the Annual Comprehensive Financial Report is critical to Virginia retaining its AAA bond rating.
  - The bond rating agencies require that parts of the Annual Comprehensive Financial Report be included in bond offering statements.
- 

##### **Effective date**

This is effective for fiscal years ending June 30, 2024, and thereafter.

This Directive rescinds and replaces Office of the Comptroller's Directive No. 2-23, *Directive Compliance Guidelines for Higher Education Institutions*.

## **Introduction, Continued**

---

### **Applicability**

This Directive applies to the Roanoke Higher Education Authority (RHEA), Institute for Advanced Learning and Research (IALR), Southwest Virginia Higher Education Center (SWVHEC), Southern Virginia Higher Education Center (SVHEC), New College Institute (NCI), and the following state-supported higher education institutions:

- Christopher Newport University (CNU)
  - The College of William & Mary (CWM) – includes Richard Bland College (RBC) and the Virginia Institute of Marine Science (VIMS)
  - George Mason University (GMU)
  - James Madison University (JMU)
  - Longwood University (LU)
  - Norfolk State University (NSU)
  - Old Dominion University (ODU)
  - Radford University (RU)
  - University of Mary Washington (UMW)
  - University of Virginia (UVA) – includes UVA College at Wise and the UVA Medical Center
  - Virginia Community College System (VCCS)
  - Virginia Commonwealth University (VCU) – includes the VCU Health System Authority (VCUHSA)
  - Virginia Military Institute (VMI)
  - Virginia Polytechnic Institute and State University (VPI&SU)
  - Virginia State University (VSU)
- 

### **Financial statements – two versions**

GASB reporting requirements have increased over the years and have resulted in two different versions of each institution's financial statements (institution format vs. DOA format). Each institution must ensure that internal controls over the institution's separately issued financial statements and the directive submissions provided to DOA for preparation of the Annual Comprehensive Financial Report are strong and result in complete and accurate information.

## Introduction, Continued

---

### Early implementation of GASB statements

There will be **no** early implementation of any GASB statement for the Commonwealth's Annual Comprehensive Financial Report. If an institution early implements any GASB statement in its separately issued financial statements, all attachments **must exclude** the effects of any early implementations.

---

### Current year implementations

The following Governmental Accounting Standards Board (GASB) statements are effective for the Commonwealth for fiscal year 2024 and thereafter:

- GASBS No. 99, *Omnibus 2022*, only paragraphs 4 to 10, and
- GASBS No. 100, *Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62*.

**Implementation Guide 2021-1, Question 5.1**, is also effective for fiscal year 2024 and indicates the institution should capitalize assets whose individual acquisition costs are less than the institution's capitalization threshold for an individual asset if those assets in the aggregate are significant. Changes adopted to conform to the provisions of Implementation Guide 2021-1 Q 5.1 should be applied retroactively as a restatement of beginning net position.

---

### Future implementations

Institutions are strongly encouraged to continue preparation efforts to implement the following statements effective for fiscal year 2025:

- GASBS No. 101, *Compensated Absences*, and
  - GASBS No. 102, *Certain Risk Disclosures*.

## Introduction, Continued

---

<b>Failure to comply</b>	<p>An integral part of the financial and administrative management standards is “substantial compliance with all financial reporting standards approved by the State Comptroller.” <b>DOA will evaluate both the timeliness and accuracy of submissions to DOA to help determine whether the higher education institutions have complied with this management standard.</b> Failure to comply with this Directive could result in the following: The institution may not meet financial and administrative management standards; and the Comptroller may disclose such failure in the <i>Quarterly Report on Statewide Financial Management and Compliance</i>. Failure to comply includes but is not limited to the following:</p> <ul style="list-style-type: none"><li>• failure to provide accurate information (which results in multiple resubmissions or multiple corrections to the Attachment HE-10),</li><li>• failure to provide corrected information after DOA inquiries, and</li><li>• failure to respond to DOA inquiries within reasonable/specified timeframes.</li></ul>
<b>Timely and accurate reporting</b>	<p>It is imperative that each institution adhere to the specified due dates and have controls in place to ensure accurate reporting information. Lack of timely and accurate responses necessary for the compilation of critical reports such as the Annual Comprehensive Financial Report (ACFR) and Schedule of Expenditures of Federal Awards (SEFA) jeopardizes the state’s bond rating and compliance with federal reporting requirements.</p>
<b>AU-C 265</b>	<p>AU-C 265, <i>Communicating Internal Control Related Matters Identified in an Audit</i>, states that the identification by the auditors of a material misstatement, identification of fraud by senior management, and ineffective oversight of an entity’s financial reporting are indicators of a material weakness in internal control. This also includes restatements of previously issued financial statements to reflect a correction of a material misstatement. This applies regardless of whether the auditors or the institution discovers the restatement.</p> <p><b>Note:</b> This does not apply to a change in accounting principle to comply with a new accounting principle or a justifiable voluntary change from one GAAP to another. Institutions must ensure controls are in place to avoid material misstatements and/or misclassifications in the attachments and other financial information submitted to DOA.</p>

<b>Communications</b>	<p>Each institution is responsible for properly preparing the institution's separately issued financial statements and the directive submissions. However, if DOA determines guidance on a reporting issue is required, this will be communicated to the institutions as needed. It is important to read emails from DOA soon after receipt of the e-mail to ensure you understand and comply with the guidance.</p> <p>If DOA determines additional information is needed from the institution not included in this Directive, DOA will contact the institution as needed and provide applicable due dates. Separate communications may be sent anytime during the year.</p> <p>In addition, if DOA needs additional information regarding the foundation(s), the institution will be responsible for obtaining the information from the foundation(s).</p>

## Attachments – Overview

---

### Instructions

Each attachment has instructions that are in the PDF format and available on DOA's website. If you do not understand the instructions and/or have any questions, contact any of the individuals listed in the **Questions** section to discuss.

---

### Attachment changes from the prior year

A summary of significant changes is included in the items of interest document that was e-mailed to fiscal officers and is available on DOA's website at [www.doa.virginia.gov](http://www.doa.virginia.gov). Click on the "Financial Statement Directives" link.

---

### Format - attachments

Most attachments are in an Excel format. There are numerous comments within the Excel attachment spreadsheets that provide clarification regarding information that should be provided. Many cells have validation features to ensure information is entered correctly. If information is not entered correctly, an "ERROR" message will display. Some of the validation functions are as follows:

- Only yellow highlighted cells allow for data entry.
- Only enter whole dollar amounts.
- Amounts on the Attachment HE-10's FST, Combining FST, or Elimination Entries to FST tabs must agree to the applicable footnote/informational tabs.

Check figures are displayed in red and provide total amounts and variance amounts that should help determine why an "ERROR" message appears in a cell. If there is an "ERROR" message that does not make sense and you cannot correct, contact DOA.

---

### Answer Required

To facilitate completion of the attachments, certain yellow input cells are prepopulated with "Answer Required" or a formula to populate "Answer Required" or "N/A" based on answers to prior questions. The "Answer Required" messages must be cleared before submission. If you cannot determine why there is an "Answer Required" message in a cell, contact DOA.

### Verify prior year amounts

The Attachments HE-3, HE-8, HE-9, and HE-10 (FST, TAB 3 & TAB 5) include prior year amounts. Prior year amounts will appear on the applicable tab after selecting the appropriate institution number-institution acronym\*. The prior year amounts should be as follows:

Prior year Attachment HE-10 amounts  
Plus or minus:  
Prior year correcting adjusting journal entries (AJEs)

Verify the prior year adjusted amounts and contact DOA if amounts do not agree to the prior year's Attachment HE-10 submission as adjusted for correcting AJEs. This should be done as soon as possible in order to resolve any discrepancies. Most correcting AJEs were identified during the prior year's Annual Comprehensive Financial Report cycle either based on correcting AJEs provided by the institution and/or the institution's response to DOA inquiries.

**\*Note:** For the CWM, the following institution number-institution acronym must be selected for prior year amounts to appear: 204-CWM Consol.

---

### Revision control log (RCL) tab

If you identify a submission that needs a revision, please contact the [AttachmentAnalyst@doa.virginia.gov](mailto:AttachmentAnalyst@doa.virginia.gov) mailbox for guidance prior to submission. If a resubmission is approved, please follow the instructions for the applicable attachment regarding the resubmission requirements.

Certain attachments include a Revision Control Log (RCL) tab. If the institution submits a complete and accurate attachment, the RCL tab would be left blank. If the institution discovers that a correction is needed to these attachments and a resubmission is approved, the attachment must be revised and resubmitted. The changes to the attachment from the first submission to the final corrected submission must be documented on the RCL tab.

---

*Continued on next page*

## Attachments - Overview, Continued

---

### **No revision control logs**

The Attachments HE-10, HE-10a, HE-10b, HE-12, and HE-14 do not have a RCL tab. **Revised attachment submissions are not allowed** unless DOA requires a resubmission in a separate communication. Institutions should ensure that internal controls are in place to ensure the preparation of these attachments are completed by the applicable due dates so that the **first and only submission of these attachments are complete and accurate.**

The purpose of this year's Attachment HE-1a is to provide any revisions to the prior year's Attachment HE-15 submission; therefore, a RCL tab is not needed for this attachment. Attachments HE-2 and HE-5 are informational attachments and do not include a RCL tab. If Attachments HE-1a, HE-2, HE-5, or HE-15 submissions need a revision, please contact the [AttachmentAnalyst@doa.virginia.gov](mailto:AttachmentAnalyst@doa.virginia.gov) mailbox for guidance prior to submission. If a resubmission is approved, a revised attachment can be sent to DOA with an explanation in the email as to why revisions are needed.

---

### **Certification tab**

Most attachments have a Certification tab. The purpose of this tab is to certify that all tabs and any additional information submitted along with the attachment is as follows:

- Complete and accurate;
- Reviewed;
- Segregation of duties exist between the preparer & reviewer; and
- Instructions were read and are understood.

Institutions should ensure that there is sufficient time for an adequate and complete review of the attachments before the submission due dates because this is an important internal control.

## Submission Requirements

---

### E-mail addresses to send to DOA & copy APA

Except as noted in instructions for specific attachments or supplemental information items, DOA requires the institution to e-mail the attachments, and/or supplemental information to DOA's e-mail address at: [finrept-HE@doa.virginia.gov](mailto:finrept-HE@doa.virginia.gov) and copy APA at [APAFinRept@apa.virginia.gov](mailto:APAFinRept@apa.virginia.gov).

DOA will e-mail a confirmation of receipt for each electronic submission. Institutions should follow-up with DOA if the institution does not receive a confirmation. Institutions should not submit paper copies of e-mailed attachments.

DOA will also notify institutions if a submission is deemed unacceptable and rejected by DOA. In these instances, the institution will be provided a new due date to resubmit the information in a manner that adequately addresses the issues noted by DOA.

### E-mail problems – after normal work hours

If you try to submit an attachment or supplemental information after normal work hours on the due date and the e-mail does not go through, you do not have to continue to try and send the e-mail. Contact DOA the next morning.

---

### Additional submission requirements – supplemental information

For the supplemental information submissions, include the following information within the text of the e-mail:

- Institution number-institution acronym and Institution name
- Contact name, phone #, e-mail address
- Name of preparer\* and Name of reviewer\*
- Description of the supplemental information

The filename for the supplemental information should be the institution number-institution acronym – Supplemental Item #-FY24 (i.e., 260-VCCS – Supplemental Item 6-FY24). Typically, the institution number is the 3-digit agency control number unless the submission is for a specific institution number. VCUHSA should use 236-VCUHSA for the institution number-institution acronym. If a submission needs a revision, please contact the [AttachmentAnalyst@doa.virginia.gov](mailto:AttachmentAnalyst@doa.virginia.gov) mailbox for guidance prior to submission. If a resubmission is approved, a revised submission can be sent to DOA with an explanation in the email as to why revisions are needed.

**\*Note:** There should be a segregation of duties; therefore, the preparer and reviewer should not be the same individual for any submission. By typing a name, the individual is certifying that the supplemental information submission is complete, accurate, reviewed, and the preparer and reviewer were not the same individual.

---

# **Supporting Work Papers**

---

## **Introduction**

Each institution must prepare supporting work papers that clearly support any attachment or supplemental information submitted to DOA.

---

## **Guidelines for financial statement template work papers**

At a minimum, work papers for the financial statement template (Attachment HE-10) should include any year-end adjusting entries and support of the financial statement template for the HEI, combining FST for the foundations, the applicable footnote/informational tabs, and any elimination entries. In addition, the reconciliation between the financial statement template and the separately issued financial statements must be properly documented and supported. Below are some selected preparation requirements:

- Reconcile work papers to the internal accounting system.
  - Provide an adequate audit trail so the work papers may be tested to ensure the accuracy of the amounts presented.
  - Maintain a reconciliation that clearly documents how the institution's separately issued financial statement line items and amounts are reported in the financial statement template for the institution and the foundations. When the separately issued financial statements are submitted to APA, the reconciliation must also be available to the APA.
  - Have work papers ready for review by DOA, if requested, or APA, as soon as possible after year-end close, but no later than the submission of the associated statements, schedules and attachments.
- 

## **Suggested work papers**

The following is a list of suggested work papers and is not all-inclusive:

- Trial balances for all funds;
  - An itemized listing of capital assets as of year-end which reconciles to the institution's internal accounting system; and
  - A detailed reconciliation of institution debt balances to Department of Treasury audit confirmation schedules.
-
